The executive committee of the legislative council met at four o'clock, in the basement room of No. 12 Madison street, last evening. The following named gentlemen were present: President James S. Prestidge, General Colton Greene, John T. Willins, J. R. Godwin and Dr. W. E. Boggs. The committee on books for the office re ported that they had procured the books and engaged the services of George W. Reynolds to be in the office during business hours to receive reports and write up the books.

FREE BATHS FOR THE PUBLIC. General Greene reported as to public baths that a boat with a false or movable bottom could be procured at a cost not exceeding two hundred dollars. The committee was granted further time to make a report. Sanitary Officer Broaddus made a report as to work done during the past week on the strects and alleys as follows:

SANITARY SERGEANT'S BEPORT. Mr. President and Gentlemen of the Auxiliary Sani

Mr. President and Gentlemen of the Auxiliary Sanitary Association:

GENTLEMEN—I herein transmit to your honorable body my report from noon June, 18, 1879, up to Saturday evening, June 21, 1879, completing one week's work Since my last report on the eighteenth, I have completed my work filling up a large hole in the street at the corner of Linden and Shelby streets with broken bricks; also cleaned up the alley and the filthy gutter in the rear of Charles Berton's saloon, corner of Beale and Shelby streets, and cleaned up a pile of filthy mud left at the corner of Main and Linden streets. Also, cleaned and swept gutters and streets around Court square, and sprinkling lime in the gutters where the hack and express wagons stand, which had become very offensive, commencing at the corner of Main and South Court to South Court; also Monroe street, from the alley between Second and Main streets, to Front street, I then commenced cleaning up Linden street, from Hernando to East Lauderdale streets; found some of the gutters in a very filthy condition, into which I have thrown lime, and also around St. Patrick's church. Have hauled one hundred and seventy loads of dirt to the dump, and eighty loads of broken bricks to fill up holes with; total, two hundred and fity loads. For the week's work ending Saturday, June 21, 1879, total loads to the dump two hundred and fity loads. For the week's work ending Saturday, June 21, 1879, total loads to the dump two hundred and fity loads. For the week's work ending Saturday, June 21, 1879, total loads to the dump two hundred and hill out of the appropriation for the week's work, one hundred and eighteen dollars and fifty cents; balance on hand, thirty-one dollars and fifty cents.

CONFERENCE COMMITTEE. Mr. Fontaine offered the following resolution, which was adopted:

Resolved, That the committee of conference be instructed to confer with the Taxleg-District authorities as to their ability to repair streets and allega, and to report back to the association if advisable

for them to make any further appropriation for this PRIVY VAULTS. The question of privy vaults on premises was generally discussed by the members of the committee. Several cheap plans for privy vaults were presented, especially by Rev. Dr Boggs, who had given the subject close attention and no little study. These discussions were indulged in with a view to recommend some cheap but effective plan to the public. Dry earth was regarded as the great

COURT SQUARE HACK-STAND. General Greene offered the following reso-WHEREAS. eodorizer for water-closets.

A CHEAP FILTERER. Dr. Boggs referred to the filterer which he is part inventor of, and stated that the cost of each filterer would be about four dollars and fifty cents at wholesale, or five dollars each. It would filter from twelve to fifteen gallons of Wolf river water daily.

How to utilize the filterer so as to furnish the poor with pure water was the object of the discussion. It was asserted that ordinary cistern-water, as used in Memphis, was not fit for drinking purposes on account of impurities. The water from a filter-bucket passes through coarse and fine sand, a bed of charcoal and into a cistern at the bottom, holding some two gallons of purified water. The amount of water filtered daily would be sufficient for any ordinary family. Mr. Willins offered the following resolution on the subject:

Resolved. That a committee of three be app surgest some means to induce the public to use fered bydrant instead of cistern-water, and how neap a filter can be furnished for the purpose. The resolution was adopted, and the president appointed a committee as tollows: Messrs. Willins, J. R. Godwin and Dave

Eiseman. On motion the committee adjourned to meet at four o'clock on Monday afternoon next.

Memphis is full of visitors. There are now here young men from all the towns within a hundred miles of Memphis. Many of them are to take part in the military display at the aying of the corner-stone. Nearly all these gentlemen knew before coming here that Sol Coleman's was the place to buy cigars. His famous brands have become known far and wide, and his reputation as a wholesale dealer is attracting a great many orders from the country.

OUR MEDICAL COLLEGE.

Encouraging Letter in Regard to it from Governor Porter-An Additional Prize for Pupils-A Bright Outlook.

The following letter from Governor Porter in regard to our medical college will be read with pleasure by our citizens. We are informed that Governor Porter's suggestion is approved by quite a number of the trustees; and the faculty offers, in addition to the prizes mentioned in their announcement, rustees' prize of one hundred dollars to the student who is the most proficient in all the branches. The faculty and trustees appreciate the interest taken in the enterprise our distinguished statesman. GOVERNOR PORTER'S LETTER.

Dr. W. E. Rogers: Paris, Tenn., June 17, 1879. Dr. W. E. Rogers:

MY DEAR SIR-I am in receipt of the first announcement of the Memphis hospital medical college, in which I am announced as one of the board of trustees, and I take it that I am indebted to you for this honor. In my opinion there is no point in the south that offers superior advantages to Memphis for medical education, especially to gentlemen who propose to practice the profession in the south and southwest, and I write to express to yourself and your associates, my approval of the undertaking and to assure you of my co-operation. I find the names of thirty-three gentlemen announced as trustees, and I suggest that in addition to the prizes already offered, that you provide, from contributions from the board, "The Trustees Prize," for such examination as may be prescribed by the faculty. Two to five dollars from each one, would provide something handsome, and would be a powerful stimulus to your first class. If this suggestion could be brought to the attention of the board of trustees, I believe that all of them would make a contribution. I will be glad to help you in that way, Yours trust. contribution. I will be glad to help you in that way. Yours truly, JAMES D. PORTER.

MADE FROM THE BERRY IN COMBINATION WITH THE EXTRACT OF BLACKBERRY ROOT. It is almost needless to say that this preparation, for an effectual and certain cure for Dysentery, Acute and Chronic Diarrhea, Flux, and all kindred diseases, far excels any other known remedy. It not only cures the disease, but strengthens the intestinal organs and invigorates the entire system. We do not claim it to cure every thing, but we guarantee it to cure the diseases we name above. THE GREATEST REMEDIAL AGENT OF THE AGE. THE TREATMENT OF THE MANY ILLS TO WHICH THE HUMAN FRAME IS SUBJECT TO, BY THE TREATMENT OF THE MANY ILLS TO WHICH THE HUMAN FRAME IS SUBJECT TO, BY absorption, now seems to be the only efficacious and speedy remedy. This new departure from the old method of swallowing nauseous medicines will be halled by thousands with a welcome greeting, because, in the BOCHESTER PAD, is found a pleasant, speedy and sure relief for many diseases.

The most reliable Pad before the public is the result of the scientific knowledge of Dr. S. N. Rochester, long a resident of New Orleans, who has made the subject of YELLOW and MALARIAL FEVER his lifestime study. After careful research into the causes and nature of these diseases, a study of twenty years constant application, and having passed through ten epidemics, the principal ones of which were YELLOW-FEVER scourges, he at last gave to the world the new life giving, heaven-inspiring gift—the Rochester Absorbing Cushion. This Cushion has been proven by scientific research and the best lestimonials from sufferers in all walks of life. It is a specific for malarial diseases, and cures in a short time torpidity of the liver and enlargement of the spiece.
